

The Science of Sterile Protection

KIMTECH PURE* Sterile Apparel

There's a lot riding on your ability to maintain a sterile work environment in your laboratory or cleanroom. KIMBERLY-CLARK PROFESSIONAL* helps you do it more efficiently by providing a comprehensive sterile bundle. The line includes KIMTECH PURE* A5 Sterile Cleanroom Apparel, KIMTECH PURE* G3 Sterile STERLING* Nitrile Gloves and KIMTECH PURE* M3 Sterile Pouch Face Mask.

These top-quality products were created by KIMBERLY-CLARK PROFESSIONAL*, a global company, to meet ISO cleanroom and other industry standards.

Innovation and Comfort

KIMTECH PURE* Sterile Products are engineered to maximize protection of processes and personnel. Look for innovative features including these:

- Apparel is breathable and designed to reduce the risk of contamination
- Gloves that combine the sensitivity of latex with the protection of nitrile
- Masks with an enlarged mask breathing chamber for comfort and a more secure fit to reduce the risk of escaping particles

Sustainable and Affordable

At KIMBERLY-CLARK PROFESSIONAL*, we strive to design our KIMTECH PURE* Sterile Products to be environmentally responsible. For example, the STERLING* Nitrile Gloves help reduce environmental impact by delivering more gloves per case than traditional gloves (in the same case).

One global source for all your sterile apparel, gloves and masks? That's working smarter! For head-to-toe, peace-of-mind protection, rely on the KIMTECH PURE* family of sterile laboratory and cleanroom products from KIMBERLY-CLARK PROFESSIONAL*.

KIMTECH
PURE* BRAND

KIMTECH PURE[®] A5 Sterile Cleanroom Coverall

with **CLEAN-DON[®]** Technology

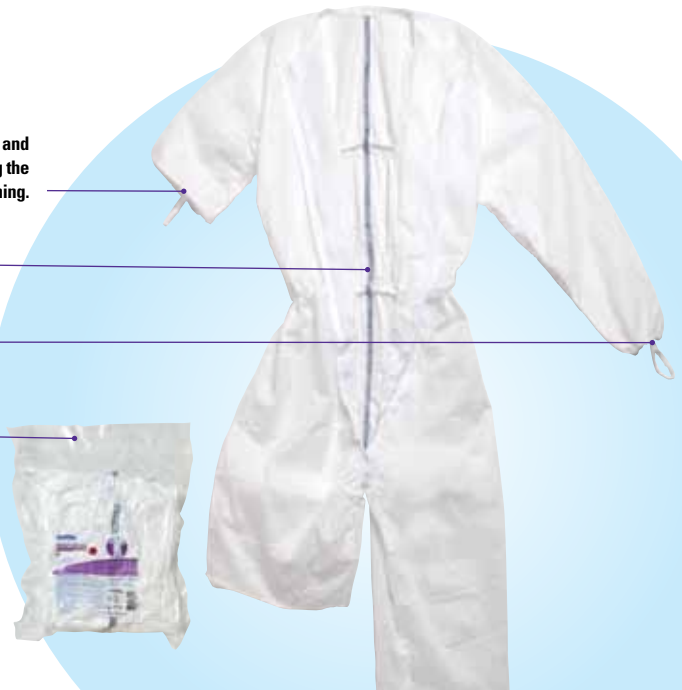

- Ideal for demanding cleanroom jobs
- Incorporates features of standard KIMTECH PURE[®] A5 Coveralls
- Patented REFLEX[®] Design is 7.5 times more rip-resistant than ANSI minimums
- CLEAN-DON[®] Technology reduces the risk of contamination associated with aseptic donning

Built-in snaps gather up legs and arms to reduce the risk of touching the floor; they release upon donning.

Blue inside line indicates where to grasp while donning so workers don't touch the outside of the garment.

Built-in thumb loop keeps garment sleeve from rolling back and exposing arm or wrist.

Innovative inside-out fold pattern reduces the risk of touching and contaminating the outside of the coverall.
